--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

EXPORT SALES REPORT

Comments on February 13, 1975, release:

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1974/75 increased by 377,000 metric tons (MT) during the week ending February 2, while there was a decrease of 117,000 MT to unknown destinations and a decrease of 100,000 MT to the European Community (EC). The apparent export commitment to the EC now stands at 3.35 million MT, and has been dropping steadily since early November when it exceeded 3.92 MT. The major increases in the apparent export commitment took place in Latin America (268,000 MT--mainly Brazil and Venezuela); Japan (113,000 MT); and India (124,000 MT). The apparent export commitment to Iran increased by 60,000 MT following a decrease of 209,000 MT reported during the previous week.

Feed Grains: The apparent export commitment for feed grains in 1974/75 increased by 115,000 MT since last week's report. The commitment of sorghum to Japan declined by 112,000 MT, while the total commitment for sorghum declined by 11,000 MT. The commitment of corn to the EC rose during the week ending February 2 by 99,000 MT to a total of 15.0 million MT for 1974/75. However, virtually no new corn import licenses were issued by the EC during the week ending February 4, and the total for the 12 months beginning August 1, 1974, now stands at 7.4 million MT of corn imports from all origins.

Rice: An increase during the week ending February 2 of 86,000 MT in the apparent export commitment for 1974/75 resulted mainly from new sales to the Khmer Republic (49,000 MT) and Iran (32,000 MT). The apparent export commitment to Iran, this year the largest foreign market for U.S. rice, now stands at 330,000 MT.

Soybeans: During the week ending February 2, the apparent export commitment declined by 260,000 MT, with most of the decline coming from the EC. Exports of 225,300 MT during the week brought the annual unadjusted rate of exports to 14.1 million MT through the first 22 weeks of 1974/75.

Soybean Meal: During the week ending February 2, exports fell to 69,800 MT and the apparent export commitment declined again, by 79,000 MT. As of December 22, 1974, AGRIMPEX, the sole Hungarian importer of soybean meal, reported imports of U.S. meal since October 1, 1974, of 16,200 MT and unshipped purchases of an additional 168,000 MT. As of the same date, 242,000 MT of outstanding sales were registered to Hungary with no shipments being reported. The apparent export commitment to Hungary has declined recently and now totals only 200,000 MT (cumulative exports of nearly 52,000 MT and outstanding sales of 148,000 MT).

Soybean Oil: During the week ending February 2, exports to Iran of 7,100 MT accounted for most of the week's total of 7,400 MT. The apparent export commitment increased by 6,300 MT during the week.

Cotton: During the week ending February 2, 115,000 running bales (RB) of Upland cotton were exported. The apparent export commitment for 1974/75 increased by 100,000 RB, with the largest increases being registered by Taiwan and Canada, and now stands at 4,515,000 RB.
